According to the Australian Work Health and Safety Regulations

Initial preparation date: 01.19.2017

**Revision date: 07.09.2020** 

## **Epoxy Putty Stick - Steel - Part A**

#### **SECTION 1: Identification**

#### **Product identifier**

Product name: Epoxy Putty Stick - Steel - Part A

Product code: 8267AUS

## Recommended use of the product and restriction on use

Relevant identified uses: Not determined or not applicable. **Uses advised against:** Not determined or not applicable.

Reasons why uses advised against: Not determined or not applicable.

## Manufacturer or supplier details

Manufacturer: Supplier: Australia **United States HHP Lunds** J-B Weld Company, LLC

1/195 Jackson Rd 400 CMH Road

Sulphur Springs, TX 75482 Sunnybank Hills, Qld 4109

903-885-7696 1300-306-781

## **Emergency telephone number:**

Australia

InfoTrac

1300-366-961 (24 hours)

#### SECTION 2: Hazard(s) identification

## GHS classification:

Skin irritation, category 2 Eye irritation, category 2A Skin sensitization, category 1

## Label elements

## **Hazard pictograms:**

Signal word: Warning

## **Hazard statements:**

H315 Causes skin irritation

H319 Causes serious eye irritation

H317 May cause an allergic skin reaction

## **Precautionary statements:**

P264 Wash hands thoroughly after handling

P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray

P272 Contaminated work clothing should not be allowed out of the workplace

P280 Wear face protection

P321 Specific treatment (see supplemental first aid instruction on this label)

Page 1 of 12

According to the Australian Work Health and Safety Regulations

Page 2 of 12

Initial preparation date: 01.19.2017

Revision date: 07.09.2020

## **Epoxy Putty Stick - Steel - Part A**

P302+P352 IF ON SKIN: Wash with plenty of soap and water

P362 Take off contaminated clothing and wash before reuse

P333+P313 If skin irritation or rash occurs: Get medical advice/attention

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing

P337+P313 If eye irritation persists: Get medical advice/attention

P501 Dispose of contents/container in accordance with local regulations.

#### Hazards not otherwise classified:

None

# **SECTION 3: Composition and information on ingredients**

Identification	Name	Weight %
CAS number: 25068-38-6	Phenol, 4,4'-(1-methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	10-30
CAS number: 3101-60-8	P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	<2
CAS number: 14807-96-6	Talc (non asbestiform)	30-60
CAS number: 65997-17-3	Glass, oxide, chemicals	10-30
CAS number: 13463-67-7	Titanium Dioxide	<1

#### **Additional Information:**

CAS # 65997-17-3 is classified as a carcinogen in its inhalable form. Since the fiberglass powder in this product is not inhalable, the product itself is not classified as a carcinogen in the form presented.

# **SECTION 4: First aid measures**

# Description of first aid measures

## **General notes:**

Show this Safety Data Sheet to the doctor in attendance.

#### After inhalation:

If inhaled, remove person to fresh air and place in a position comfortable for breathing. Keep person at rest. If breathing is difficult, administer oxygen. If breathing has stopped, provide artificial respiration. If experiencing respiratory symptoms, seek medical advice/attention.

#### After skin contact:

Remove contaminated clothing and shoes. Rinse skin with copious amounts of water [shower] for several minutes. Launder contaminated clothing before reuse. If symptoms develop or persist, seek medical advice/attention.

#### After eye contact:

Rinse eyes with plenty of gently flowing lukewarm water for 15 minutes. Remove contact lenses if present and easy to do so. Protect unexposed eye. If symptoms develop or persist, seek medical advice/attention.

**Revision date:** 07.09.2020

## **Epoxy Putty Stick - Steel - Part A**

#### After swallowing:

If swallowed, DO NOT induce vomiting unless told to do so by a physician or poison control center. Rinse mouth with water. Never give anything by mouth to an unconscious person. If spontaneous vomiting occurs, place on the left side with head down to prevent aspiration of liquid into the lungs. If symptoms develop or persist, seek medical advice/attention.

# Most important symptoms and effects, both acute and delayed

#### Acute symptoms and effects:

Skin contact may result in redness, pain, burning and inflammation.

Eye contact may result in irritation, redness, pain, inflammation, itching, burning and tearing.

Dermal exposure may cause an allergic skin reaction. Symptoms may include irritation, redness, pain, rash, inflammation, itching, burning and dermatitis.

## **Delayed symptoms and effects:**

Effects are dependent on exposure (dose, concentration, contact time).

#### Immediate medical attention and special treatment

#### **Specific treatment:**

Not determined or not applicable.

#### Notes for the doctor:

Treat symptomatically.

## **SECTION 5: Fire fighting measures**

#### Extinguishing media

#### Suitable extinguishing media:

Water mist/fog, carbon dioxide, dry chemical or alcohol resistant foam.

## Unsuitable extinguishing media:

Do not use water jet.

# Specific hazards during fire-fighting:

Thermal decomposition may produce irritating/toxic fumes/gases.

#### Special protective equipment for firefighters:

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full-face piece operated in positive pressure mode.

## Special precautions:

Avoid contact with skin, eyes, hair and clothing. Do not breathe fumes/gas/mists/aerosols/vapors/dusts. Move containers from fire area if safe to do so. Use water spray/fog for cooling fire exposed containers. Avoid unnecessary run-off of extinguishing media which may cause pollution.

## **SECTION 6: Accidental release measures**

## Personal precautions, protective equipment and emergency procedures:

Evacuate unnecessary personnel. Ventilate area. Extinguish any sources of ignition. Wear recommended personal protective equipment (see Section 8). Avoid contact with skin, eyes and clothing. Avoid breathing mist, vapor, dust, fume and spray. Do not walk through spilled material. Wash thoroughly after handling.

#### **Environmental precautions:**

Prevent further leakage or spillage if safe to do so. Prevent from reaching drains, sewers and waterways. Discharge into the environment must be avoided.

Initial preparation date: 01.19.2017

Revision date: 07.09.2020

## **Epoxy Putty Stick - Steel - Part A**

## Methods and material for containment and cleaning up:

Do not touch damaged containers or spilled material unless wearing appropriate personal protective clothing. Stop leak if you can do it without risk. Contain and collect spillage and place in suitable container for future disposal. Dispose of in accordance with all applicable regulations (see Section 13).

#### Reference to other sections:

For personal protective equipment see Section 8. For disposal see Section 13.

### **SECTION 7: Handling and storage precautions**

#### Precautions for safe handling:

Use appropriate personal protective equipment (see Section 8). Use only with adequate ventilation. Avoid breathing mist/vapor/spray/dust. Do not eat, drink, smoke, or use personal products when handling chemical substances. Avoid contact with skin, eyes and clothing. Wash affected areas thoroughly after handling. Keep away from incompatible materials (See Section 10). Keep containers tightly closed when not in use.

# Conditions for safe storage, including any incompatibilities:

Store in cool, dry, well-ventilated location out of direct sunlight. Keep away from food and beverages. Protect from freezing and physical damage. Store away from heat, open flames and other sources of ignition. Keep container tightly sealed. Store away from incompatible materials (See Section 10).

## **SECTION 8: Exposure controls and personal protection**

Only those substances with limit values have been included below.

#### Occupational Exposure limit values:

Country (Legal Basis)	Substance	Identifier	Permissible concentration
Australia	Talc (non asbestiform)	14807-96-6	TWA: 2.5 mg/m³ (containing no asbestos fibers)
	Glass, oxide, chemicals	65997-17-3	TWA: 0.5 fibers/ml (of air [Superfine glass fiber])
	Glass, oxide, chemicals	65997-17-3	TWA: 0.5 fibers/ml (of air [Synthetic mineral fibers])
	Glass, oxide, chemicals	65997-17-3	TWA: 0.5 fibers/ml (of air [Glasswool including superfine glass fiber])
	Glass, oxide, chemicals	65997-17-3	TWA: 0.5 fibers/ml (of air [Rockwool])
	Glass, oxide, chemicals	65997-17-3	TWA: 0.5 fibers/ml (of air [Ceramic fibers])
	Titanium Dioxide	13463-67-7	TWA: 10 mg/m³ (National Workplace OELs)

## **Biological limit values:**

No biological exposure limits noted for the ingredient(s).

#### Information on monitoring procedures:

Not determined or not applicable.

#### Appropriate engineering controls:

Emergency eye wash stations and safety showers should be available in the immediate vicinity of use or

**Revision date:** 07.09.2020

## **Epoxy Putty Stick - Steel - Part A**

handling. Provide adequate ventilation to maintain the airborne concentrations of vapor, mists, and/or dusts below the applicable workplace exposure limits, while observing recognized national standards (or equivalent).

## Personal protection equipment

## Eye and face protection:

Safety glasses or goggles. Use eye protection equipment that has been tested and approved by recognized national standards (or equivalent).

## Skin and body protection:

Chemical resistant, impervious gloves approved by the appropriate standards. Gloves must be inspected prior to use. Avoid skin contact with used gloves. Appropriate techniques should be used to remove used gloves and contaminated clothing. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Ensure that all personal protective equipment is approved by recognized national standards (or equivalent).

## Respiratory protection:

If engineering controls do not maintain airborne concentrations below the applicable workplace exposure limits, or to an acceptable level (if exposure limits have not been established), a respirator approved by recognized national standards (or equivalent) must be worn.

#### General hygienic measures:

When handling chemical products, do not eat, drink or smoke. Wash hands after handling, before breaks, and at the end of the workday. Avoid contact with skin, eyes and clothing. Wash contaminated clothing before reuse. Perform routine housekeeping.

## **SECTION 9: Physical and chemical properties**

#### Information on basic physical and chemical properties

A	Var. thial. black roots (askid)
Appearance	Very thick black paste (solid)
Odor	Not determined or not available.
Odor threshold	Not determined or not available.
рН	Not determined or not available.
Melting point/freezing point	Not determined or not available.
Initial boiling point/range	Not determined or not available.
Flash point (closed cup)	135 °C (275 °F)
Evaporation rate	Not determined or not available.
Flammability (solid, gas)	Not determined or not available.
Upper flammability/explosive limit	Not determined or not available.
Lower flammability/explosive limit	Not determined or not available.
Vapor pressure	Not determined or not available.
Vapor density	Not determined or not available.
Density	2.15
Relative density	Not determined or not available.
Solubilities	Not determined or not available.
Partition coefficient (n-octanol/water)	Not determined or not available.
Auto/Self-ignition temperature	Not determined or not available.

# **Epoxy Putty Stick - Steel - Part A**

Decomposition temperature	Not determined or not available.
Dynamic viscosity	Not determined or not available.
Kinematic viscosity	Not determined or not available.
Explosive properties	Not determined or not available.
Oxidizing properties	Not determined or not available.

#### Other information

# **SECTION 10: Stability and reactivity**

## Reactivity:

Not reactive under recommended handling and storage conditions.

## Chemical stability:

Stable under recommended handling and storage conditions.

#### Possibility of hazardous reactions:

Hazardous reactions are not anticipated under recommended conditions of handling and storage.

#### Conditions to avoid:

Extreme heat, open flames, hot surfaces, sparks, ignition sources and incompatible materials.

#### Incompatible materials:

None known.

## Hazardous decomposition products:

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# **SECTION 11: Hazard information**

#### **Acute toxicity**

Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

## Substance data:

Name	Route	Result
Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	oral	LD50 Rat: > 2000 mg/kg
P-tert-butylphenyl 1-(2,3-	oral	LD50 Rat: > 2000 mg/kg
epoxy)propyl ether	dermal	LD50 Rat: > 2000 mg/kg
Talc (non asbestiform)	oral	LD50 Rat: >5000 mg/kg
Titanium Dioxide	oral	LD50 Mouse: > 5000 mg/kg
	inhalation	LC50 Rat: 5.09 mg/L (4 hr)

## Skin corrosion/irritation

## Assessment:

Causes skin irritation.

#### Product data:

No data available.

# **Epoxy Putty Stick - Steel - Part A**

#### Substance data:

Janotano aata		
Name	Result	
Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	Causes skin irritation.	
P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	Causes skin irritation.	

## Serious eye damage/irritation

#### **Assessment:**

Causes serious eye irritation.

#### Product data:

No data available.

### Substance data:

Name	Result
Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	Causes serious eye irritation.
P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	Causes serious eye irritation.

# Respiratory or skin sensitization

## Assessment:

May cause an allergic skin reaction.

## Product data:

No data available.

# Substance data:

Name	Result
Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	May cause an allergic skin reaction.
P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	May cause an allergic skin reaction.

# Carcinogenicity

**Assessment:** Based on available data, the classification criteria are not met.

Product data: No data available.

## Substance data:

Name	Species	Result
Talc (non asbestiform)		Talc containing asbestos is carcinogenic to humans.
Glass, oxide, chemicals	Not applicable	May cause cancer via inhalation.
Titanium Dioxide		Airborne, unbound particles of respirable size are known to cause cancer.

## International Agency for Research on Cancer (IARC):

Name	Classification
Talc (non asbestiform)	Group 3
Glass, oxide, chemicals	Group 2B
Titanium Dioxide	Group 2B

National Toxicology Program (NTP): None of the ingredients are listed.

## Germ cell mutagenicity

Assessment: Based on available data, the classification criteria are not met.

**Product data:**No data available.

Substance data: No data available.

## Reproductive toxicity

Assessment: Based on available data, the classification criteria are not met.

**Product data:**No data available.

Substance data: No data available.

## Specific target organ toxicity (single exposure)

**Assessment:** Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

## Specific target organ toxicity (repeated exposure)

Assessment: Based on available data, the classification criteria are not met.

**Product data:**No data available.

Substance data: No data available.

## **Aspiration toxicity**

**Assessment:** Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

#### Information on likely routes of exposure:

Skin, Eye.

## Symptoms related to the physical, chemical and toxicological characteristics:

Refer to Section 4 of this SDS.

#### Other information:

No data available.

## SECTION 12: Ecological information

## Acute (short-term) toxicity

Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

**Epoxy Putty Stick - Steel - Part A** 

Substance data:		
Name	Result	
, , ,	EC50 Scenedesmus capricornutum: 9 mg/L (48 hr)	
methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	EC50 Daphnia magna: 1 mg/L (48 hr)	

Page 9 of 12

## Chronic (long-term) toxicity

#### **Assessment:**

Toxic to aquatic life with long lasting effects.

Product data: No data available. Substance data: No data available.

# Persistence and degradability

Product data: No data available.

#### Substance data:

Name	Result
Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 2-(chloromethyl)oxiran	No biodegradation observed. However, significant hydrolysis occurred eliminating 82 % over 28 days.
P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	Under test conditions, no biodegradation was observed (11% degradation after 28 days).
Talc (non asbestiform)	Biodegradation is not applicable to inorganic substances.
Titanium Dioxide	Degradation/biodegradation testing is not relevant for metals and metal compounds that are not (bio)degradable, including titanium dioxide.

## Bioaccumulative potential

Product data: No data available.

## Substance data:

Name	Result
Talc (non asbestiform)	No potential for bioaccumulation.

# Mobility in soil

Product data: No data available.

## Substance data:

Name	Result
P-tert-butylphenyl 1-(2,3-	Moderately mobile (log Koc: 2.88).
epoxy)propyl ether	

#### Results of PBT and vPvB assessment

#### **Product data:**

PBT assessment: This product does not contain any substances that are assessed to be a PBT. vPvB assessment: This product does not contain any substances that are assessed to be a vPvB.

Initial preparation date: 01.19.2017

Revision date: 07.09.2020

# **Epoxy Putty Stick - Steel - Part A**

## Substance data:

#### PBT assessment:

P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	This substance is not PBT.
Talc (non asbestiform)	The substance is inorganic, and as such the criteria for PBT are not applicable.
Titanium Dioxide	According to Annex XIII of regulation (EC) 1907/2006 a PBT assessment shall not be conducted for inorganic substances. Titanium dioxide is an inorganic substance, thus a PBT assessment is not required.

#### vPvB assessment:

P-tert-butylphenyl 1-(2,3-epoxy)propyl ether	This substance is not vPvB.
Talc (non asbestiform)	The substance is inorganic, and as such the criteria for vPvB are not applicable.
Titanium Dioxide	According to Annex XIII of regulation (EC) 1907/2006 a vPvB assessment shall not be conducted for inorganic substances. Titanium dioxide is an inorganic substance, thus a vPvB assessment is not required.

Other adverse effects: No data available.

# **SECTION 13: Disposal considerations**

# Disposal methods:

It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities

## Contaminated packages:

Not determined or not applicable.
